

Smart Technology. Delivered.™

Healthcare Antenna Solutions

Laird antenna solutions help you firm, meet and exceed the wireless connectivity challenges in the healthcare industry.

Laird In Your Industry

Patient safety, mobility and operational efficiency are fundamental in the healthcare industry. At Laird we know how important it is for caregivers and patients to be mobile and provide accurate information and timely monitoring. Because we understand your industry, we offer a broad antenna solutions portfolio that allows you to provide hospital connectivity, perform general inventory management (supply chain), implement asset tracking or provide location for emergency vehicles.

Healthcare Antenna Solutions

Hospital Connectivity

A reliable and secure hospital connectivity help hospitals improve quality care, decrease expenses, and increase communication between patients, doctors and hospital staff. At Laird we know the importance of wireless connectivity and mobility for your business and therefore offer a complete antenna solutions portfolio giving you the wireless connectivity needed for real-time patient record information access and management, Wi-Fi access for visitors and guests and patient bedside consultation using data over Wireless Medical Telemetry Services (WMTS), among other applications.

Cellular Connectivity

<p>CMS Series</p>  <p>Omnidirectional Ceiling Mount Antenna</p>	<p>PAV Series</p>  <p>SISO Directional Wall Mount</p>	<p>CMD Series</p>  <p>2-Port MIMO Omnidirectional Ceiling Mount</p>	<p>CMX Series</p>  <p>2-Port MIMO Ceiling Mount Low Profile</p>
<p>CMQ Series</p>  <p>4-Port MIMO Ceiling Mount Low Profile</p>	<p>PAS Series</p>  <p>2-Port MIMO Wall Mount</p>	<p>OC Series (cellular & WiFi)</p>  <p>Indoor/Outdoor Wide Band Omnidirectional Antenna</p>	

WiFi Connectivity

<p>Embedded Antennas</p>  <p>Omnidirectional, Bluetooth, WiFi, WLAN</p>	<p>CMD Series</p>  <p>2-Port MIMO Ceiling Mount Low Profile</p>	<p>CMT Series</p>  <p>3-Port MIMO Ceiling Mount Low Profile</p>	<p>SLP Series</p>  <p>Indoor/Outdoor Panel</p>
<p>OC Series (cellular & WiFi)</p>  <p>Indoor/Outdoor Wide Band Omnidirectional Antenna</p>	<p>CMQ Series</p>  <p>4-Port MIMO Ceiling Mount Low Profile</p>		

General Inventory Management – Supply Chain

Inventory management allows hospitals to control the maximization of equipment supply usage and distribution. Additionally, it allows hospitals, manufacturers and medical devices distributors to trace medical device's history and movement in case there is any problem. At Laird we offer you an extensive antenna solutions portfolio that enables the device connectivity (data over WLAN network), and RFID connectivity (data over RFID) needed to perform inventory management.

Asset Tracking

Hospitals can increase patient safety and easily reduce the cost associated with loss of medical equipment implementing real time tracking systems. At Laird we offer you an antenna solutions portfolio that enables the wireless connectivity needed to perform patient and high value asset tracking using data over RFID.

Emergency Vehicles

In emergency situations time is critical for emergency vehicles (ambulances, rapid response vehicles, and organ transplant or blood supply vehicles). Seamless wireless connectivity, data usage, data streaming and location are significant for timely response and patient safety. At Laird, we understand how critical it is to have a reliable wireless connectivity that allows data, voice, video, and location over operator networks in emergency situations, that's why we offer you a wide portfolio of antenna solutions that enables the wireless connectivity required to transmit data, voice, and video over operator networks.

VLT Series

3-Port Indoor/Outdoor IP67, 3G, 4G, WiFi, GPS Disc Puck

DTRA/AVL

Indoor/Outdoor Dual Band & Triband GPS

VHP Series

5-Port Indoor/Outdoor IP67, 3G, 4G, WiFi, GPS Disc Puck

What Sets Us Apart

MISSION

A trusted partner delivering technology to the world through innovation, speed, & reliable fulfillment.

VISION

A world where smart technology enables virtually everything to sense, think and communicate; transforming our way of life and empowering us to do more than we can imagine

CULTURE

Working as a global team of talented individuals to make a difference for our employees, business partners and our world

We have an unwavering commitment to being honest and ethical in all situations and treating each other with dignity and respect.

We create an open and engaging environment that thrives on high energy, adaptability and delivering on our commitments.

Laird is a place with great opportunities for personal and professional growth for those who work hard, are willing to learn and deliver results.

29

engineering and manufacturing sites globally

Why Choose Laird?

Laird antenna solutions help you firm, meet and exceed the wireless connectivity challenges in the healthcare industry by enhancing hospitals quality care, decreasing expenses, and increasing and improving real-time communication between patients, doctors and hospital staff.

Laird provides systems, components and solutions that protect electronics from electromagnetic interference and heat, and that enable connectivity in mission critical systems through wireless applications and antenna systems.

We are a leader in the design, development and delivery of innovative technologies that enable people, organizations and applications to connect efficiently and effectively. With a proud history stretching back to 1824, Laird has been at the forefront of technological innovation for almost two centuries. And we continue to deliver.

Our reputation has been built on three guiding principles:

- Innovation- putting our in-depth knowledge of the latest materials and processes to work in creating outstanding products for our customers.
- Reliable fulfillment – delivering what our customers need to their exact specifications, on time and on budget, and in the quantities required.
- Speed- rationalizing the design and delivery cycle to minimize the time from initial concept to final implementation.
